Style Number: 359
Service: Tanklid Packing
Product Type : Braided Packing

Description:

Braided from PTFE over a resilient filler material and rubber core, Style 359 was specifically designed to seal tank covers, hatches, and lids where the stored media is highly aggressive. Thoroughly designed and tested to be impervious to liquids and gases, Style 359 combines the chemical resistance and sealability PTFE, with the compression recovery properties of braided packing. Specifically designed for sealing all International Maritime Organization liquid classes. Available in either bulk spools, or endless rings.

Construction:	Round Braid over Core
Temperature Rating:	250° F / 121°C
pH Rating:	0 – 14
Shaft Speed Rating:	N/A
Pressure Rating:	10 PSI / .7 BAR
